

ATMtrailer

If you are looking for a business that...

- **Is Easy To Market** •
- **Has Low Operating Cost** •
- **Is Not A Second Job** •
- **Has Extremely High Potential Return** •
- **Has No Franchise Fee Or Royalties** •

The ATMtrailer is what you have been looking for!

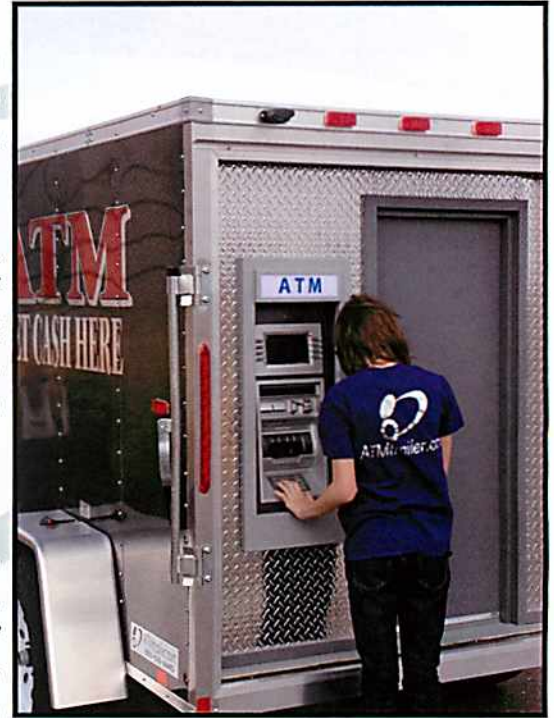

What Atmtrailer Is

The ATMtrailer is a mobile Automated Teller Machine that operates on wireless Internet and can be used virtually anywhere! The owner of an ATMtrailer can provide patrons of all kinds of events access to their bank accounts to withdraw cash on site while making a handsome profit.

Most events such as fairs, rodeos, fund raisers, festivals, auto races, etc. draw thousands of patrons ready to spend money! But the promoters of those events often overlook the most important rule to fund raising: don't limit the patrons to the cash they brought with them! Promoters fail to provide a way for patrons to access their bank accounts at the event! The ATMtrailer provides that access!

What Atmtrailer Is Not

The ATMtrailer is not a get rich quick vehicle. As the owner you will have to find the events, set up the ATMtrailer and provide the cash to dispense. This will require some time and effort on your part so this is a "hands on" venture. On the other hand, you are not purchasing a job like with many opportunities. Once the ATMtrailer is set up, it will operate itself and you

can monitor it from miles or states away with the free smartphone app. The dispensed cash and profits are deposited directly into your designated account within one business day, available to be used again and again.

Features

Trailer Description

Our ATMtrailers are built from 5X8 covered trailers. This allows plenty of room for the necessary additions inside while providing a compact design that will fit into many event schemes. All ATMtrailers have 7/16 OSB board on the interior walls for added stability and security. They are equipped with 15" wheels and stabilizer jacks mounted on the rear of the unit as well as a heavy duty retractable jack on the tongue. This design allows quick set-up and maximum stability at events and easy removal of the wheels for added security.

ADA & PCI Compliant

Compliance with regulatory requirements is important to ATMtrailer. That is why our ATM and ATMtrailer are fully compliant with the

network requirements for card holder security and with the requirements of the Americans with Disabilities Act effective March 15, 2012. We found that building the ATM into the side of the trailer would not meet the height and reach requirements of the ADA. Therefore, we engineered the ATMtrailer with our patent pending design. By placing the ATM in the rear of the trailer we are ADA compliant as is and the ATMtrailer is more functional as a mobile unit.

Benefits

To Event Patrons

How many times have you attended an event, whether it be a concert, auto race or county fair, and found that you had underestimated the amount of money you would need to have the good times the event offered? Many times customers underestimate the cost of food, drinks or souvenirs. Children usually have no concept of money and want everything in sight. When these customers need cash, they start looking for the ATM.

To Event Vendors and Promoters

At most events, the food and souvenir vendors pay for the spot. This means that, before they sell anything, the vendors are in the hole. In our experience the vendors at these events are a tight knit group. As they got to know about the ATMtrailer, they became our biggest marketing tool simply because customers having access to their cash at the event increased their sales many times. For example, the local Sheriff's Department has an annual fund raiser for their Employee Assistance Fund. At the Mud Volleyball Tournament they sold t-shirts, volleyballs, food and other fund raising products. On the day we took our ATMtrailer to the tournament, the sales increased by over \$3,000. Really, who brings cash to a Mud Volleyball Tournament? The point is that you can be an asset to the vendors and they will be an asset to you!

To the ATMTrailer Owner

The ATMtrailer is easy to market and easy to set up. It can be monitored on the smartphone app so there is no need to have the ATMtrailer attended during an event. There are no employees, it's not a job and you are free to do whatever you need or wish to do while the ATMtrailer makes you money. You control the income you can make. Events will always be happening. People will always need access to their cash at the events. The ATMtrailer is a safe purchase with a one-year warranty. You certainly must make an effort to make the money, but the freedom and income that the ATMtrailer provides is certainly rewarding.

To Banks and Credit Unions

The ATMtrailer allows your financial institution to be everywhere your customers are. Major banks are there with their \$70,000 units! Now you can provide the same services at a fraction of the cost. Whenever a customer looks for an ATM at an event, wouldn't it be great for them to recognize your logo and use an ATM at an event for no cost? What better customer service can you provide for your customers? Withdrawals from customers of competitors will pay for the ATMtrailer in no time. Your customer service will be awesome!

The income potential is unlimited. The more events you take the ATMtrailer to the more you will profit. Below is an example of what is possible based on a \$4.00 transaction fee. This is a very common fee for mobile event ATMs.

Weekly Transactions	Weekly Income	Monthly Income	Annual Income*
100	\$400	\$1,600	\$16,000
150	\$600	\$2,400	\$24,000
200	\$800	\$3,200	\$32,000
250	\$1,000	\$4,000	\$40,000
300	\$1,200	\$4,800	\$48,000

* These income estimates assume a few slow months during the year. The only expenses you have coming out of the income is \$20 monthly for the wireless internet service and the gas to tow the ATMtrailer back and forth.

Monthly Statement

For June, 2013

Terminal Information				Statement Summary			
Terminal ID:	[REDACTED]			Total Transactions:	2,378
